My Robot Home Plus/Compact

Automatic Mechanical door, Solar light, Roof opening and High quality Danish design.

You do not have to program a timer – the garage door is mechanical and works without electricity. The light runs on solar energy.

2025 news: Fewer parts, faster installation.

FEATURES:

- Auto-mechanical door that opens and closes automatically
- Access the robot from the top
- Solar illumination
- Adjustable feet and asphalt roof
- Fits 90% of all robot mowers
- Colour: grey / white
- Protects the robot all year round

My Robot Home Plus

Door size: 70cm x 40cm Length: 107cm

My Robot Home Compact

Door size: 55cm x 33cm Length: 81,4cm

Wooden garages

All our wooden garages work for RTK robots, are made of fast growing wood, and have a 2-year warranty. At AM ROBOTS we recommend giving the garages a coat of paint or oil every second year, to keep the quality of the garage intact.

Without garage With garage

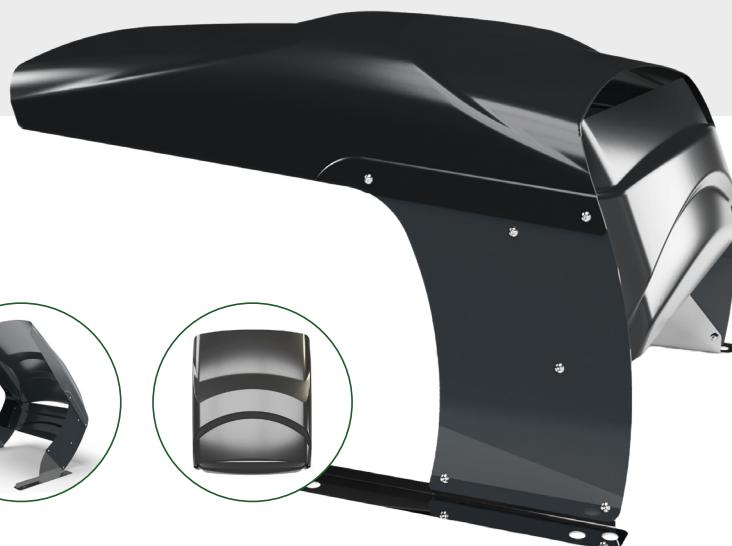

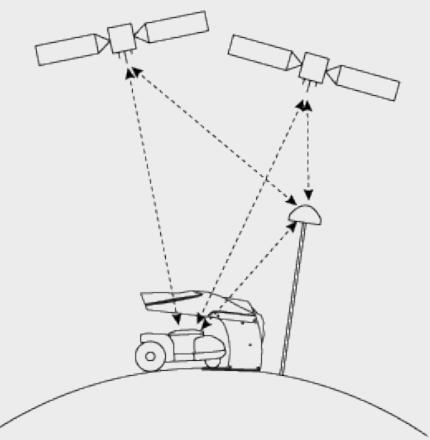

[Blog post - 4 reasons to use a garage for your robot mower](#)

"The ultimate garage for wireless robots".

AM ROBOTS presents the new Navi Home
The Garage especially designed for RTK-Robots.

Navi Home - RTK

**Specialized shelter designed to optimize the signal reception for RTK robots.
Compatible with various satellite navigations.**

Originally designed for the Segway Navimow robot but works for all wireless robots.
The shelter's roof can be tilted so you can gain easy access to the robot.

FEATURES:

- RTK Compatibility
- Simple Installation
- Roof with UV-Protection
- Included Storm Anchors

Navi Home

Size: 77cm x 72cm x 48cm

Aluminium garages

All garages have 2-years warranty. No maintenance is needed, however, we recommend occasionally giving the garage or shelter a thorough clean.

Medium SKU: 38501696
Large SKU: 38501697

AM Garage 1

Tinted roof for extra sun protection.

- With see through, black shaded roof
- Great value for money

AM Garage 1 - Medium

Size: 60cm x 42cm x 80cm

AM Garage 1 - Large

Size: 77cm x 45,5cm x 103cm

SKU: 38969998

Universal Garage

Flip it open and access from the top.

- Tilt the top
- Installed in minutes
- Pegs to attach the garage are included

Universal Garage

Size: 82cm x 70cm x 46cm

SKU: 3899999

Robot Shelter

One piece shelter.

- Installed in minutes
- Comes in one piece
- Pegs to attach the shelter are included

Robot Shelter

Size: 39cm x 75cm x 55cm

SKU: 3899999

SKU: 38989998

Ambrogio L400

Only fits L400.

- Strong build
- Can be customized
- Standard colours: Black and gold

Ambrogio L400

Size: 135cm x 130cm x 55cm

SKU: 38501699

C-Home

Compatible with the Ceora Automower.

- Protects the robot from overheating
- Available with an extra storage box that comes with an external power plug

C-Home

Size: 163cm x 142cm x 71cm

SKU: 38999998

BIGMOW Sponsor home

For sports clubs.

- Strong build
- Sponsorship options
- Suits the BIGMOW docking station

BIGMOW

20m x 1m SKU: 57504142

AM Hybrid Grass

AM Hybrid grass gives natural grass the opportunity to recover and grow through the net.

AM Hybrid grass provides a natural look while hiding bald patches in the garden. Use it on steep areas in the garden where the robot tends to slide down. Ideal for the docking station where the grass is worn away by the robot - perfect for places where the grass does not grow.

The Hybrid grass makes sure you do not have to worry about the robot getting stuck anywhere on the lawn, allowing the robot to cut the entire lawn all year round.

Hybrid Grass

Size: 80cm x 80cm

Hybrid Grass

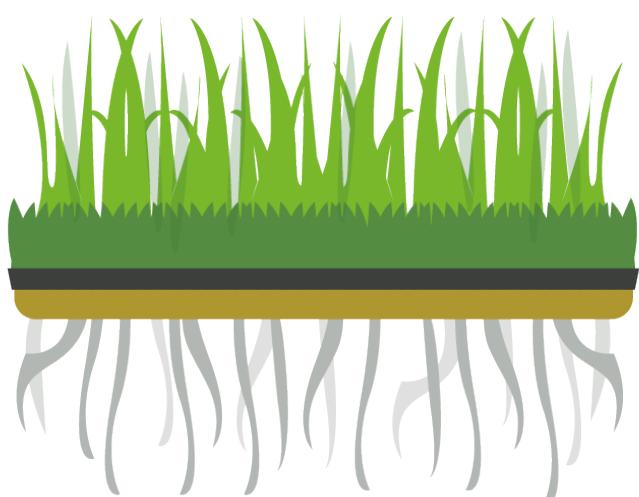

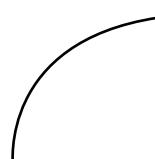

Size: 2m x 2m

Hybrid Grass

Size: 20m x 1m

FEATURES:

- Protects the lawn
- Invisible in 3-4 weeks
- Gives the robot a better grip
- Use it by the docking station
- Made of: Synthetic grass

The natural grass grows through the Hybrid Grass with the roots well protected underneath the net.

Our Cable selection

PREMIUM SAFETY CABLE 3,8MM

The premium cable with 3-layer protection includes Rodent Repellent in the outer layer and has a strong metal mesh. The best cable for professional installers who prefer to use time on installations instead of repairs.

Inner core: 1,5mm²
Cable size: 3,8mm

STANDARD CABLE 3,4MM

The 3,4mm cable is suitable for all cable machines. A great, flexible standard cable for professional installers. For all robot mower installations.

Inner core: 1,5mm²
Cable size: 3,4mm

BASIC CABLE 2,7MM

The 2,7mm cable is ideal for installations above ground. A good basic cable for all robot mower installations.

Inner core: 1,5mm²
Cable size: 2,7mm

Terra 800 Cable Machine

Cost-Efficient cable machine with the drill bit system, fitting all AM ROBOTS cable spools.

- Loncin four-stroke push mower engine. Max speed@3600rmp
- Noise specifications: 72 dB/a
- Efficient: UP to 600m/h
- Depth from 1-5cm underground
- 180 degrees handle tilting
- Takes cable up to 6mm in Diameter
- Meter-counter included

Fuel-driven cable machine

PWM 600MH Cable Machine

Designed by professionals to optimize the work of robotic mower installers.

- Powerful 4-stroke Honda GXH50 Engine, 2,1 HP
- Installs 600 meters per hour
- Wire depth 4-6 cm underground
- Ergonomic handle
- Cable size up to 6 mm
- Heavy-duty blades for all underground obstacles

Fuel-driven cable machine

PWM 600MH-LI Cable Machine

The best battery-driven cable machine for robot mower installations.

- Brushless 80/82V Lithium-Ion battery electric motor
- Silent and sustainable installation
- Emission-free operation
- Ergonomic handle
- Can take up to 70% steep slopes
- Heavy duty blades for all underground obstacles

Batteri-driven cable machine

Robot ReDirect

Exclude or include areas with a simple twist.

- Use 1 unit per area
- IP67 waterproof and frost resistant (-18 °C), so it can stay outside year after year.
- Screw it into the ground, and simply twist it to activate.
- Tested on Husqvarna, Ambrogio, STIHL, Robomow, Worx, Cup Cadet, AL-KO and other model robot mowers
- Include or exclude an area with a twist

Choose where to cut

Blades

At AM ROBOTS we develop our blades with the highest concern for safety.

The blades are made of stainless steel, with an extra hard coating, designed to minimize the chance of breakage if the blade hits a rock or hard branch during cutting.

Stainless steel's strength, resistance to corrosion and low maintenance makes it the ideal material for our blades. Furthermore, we appreciate its long lifespan and that the material is 100% recyclable.

- Developed with a high concern for safety
- Stainless steel
- 100% recyclable

Tools

The main principles of robot lawnmower installations are the same no matter the garden. But the tools used for the installation, or repair, vary.

At AM ROBOTS we continuously try to evolve and meet the demands, by revolutionizing our product range. Supplying worldwide installers the best tools in the industry.

- Pliers
- Trackers
- Cleaning tools
- Heat Gun
- Tools for every installation

SKU: 60503581

AM Wirestripper 5in1

The multi-function feature means that you only need one tool.

- Stripping
- Crimping
- Cutting
- Adjustable to fit any type and size of cable

AM Wirestripper 5in1

1 pc

SKU: 60509397

AM Pro Tracker Plus

AM Pro Tracker Plus can locate wire breaks down to a depth of 2 meters. Can be used on partial breaks.

- Customized display that improves usability
- Multiple track options
- USB Rechargeable
- The detected cable length can be up to 2 km
- Earth-Rod included

AM Pro Tracker Plus

AM Portable Heat Gun

AM ROBOTS presents the best tool for any repair or installation of robot lawnmower cable.

This product has been designed to make repairs on boundary cable in any garden at any location. It is possible to do 30 repairs on one battery charge.

The heat gun runs on 18-volt power and the 4AH battery will provide you with a powerful heat blow. The max temperature is 550°C which gives the perfect heat needed for all heat shrink connectors.

FEATURES:

- Cordless with lithium battery
- Repair over 30 boundary wires on one charge
- Used for heat shrink connectors
- Works for all robot mower cables
- Cooling system
- Battery: 4AH lithium battery
- Power: 18v DC
- Rated current: 15A
- Max temp: 550 °C
- Max airflow: 200L/min

Perfect for any repair or installation

Video - How to use the Heat Gun with the connectors from AM Robots

Connectors

At AM ROBOTS we develop our connectors with two subjects in focus. First of we need them to function with a strong connection and long lifespan.

Second, we are aiming to facilitate quick and easy solutions for our dedicated installers all over the world.

With our big assortment we have connectors that fit every need when doing an installation or repair of a robot mower.

- Strong connections
- Quick and easy solutions
- Used for Installations and repairs

SKU: 53989924

Heat Shrink kit - 10cm

AM ROBOTS is proud to present our repair kit for shortened wires.

- Easy and simple repair
- Gives a better connection
- Saves time and installation material
- Professional repair for short breaks

Scotchlok 314 Connector

The most used connector for underground installations.

- Provides an insulated connection for 2 to 3 wires
- Use this product with a mineral oil lubricant to create a tight seal that is resistant to moisture
- The insulated connector is designed to work with 22 to 14 AWG solid/stranded wires
- Corrosion resistance is provided by the tin plating that is constructed from high-quality brass for good conductivity
- Suitable for use at temperatures up to 105°C (221°F)

Scotchlok 314 Connector

Pro Guide Cable Connector

Avoid cutting the boundary cable by using a pro guide cable connector.

- 100% waterproof
- Resistant to heat and cold with a polypropylene insulation
- Used to tap into a wirecircuit without cutting or stripping the wire

Pegs

At AM ROBOTS, we offer a diverse range of pegs designed to meet the needs of all our customers. Whether you prefer regular or extreme plastic pegs, docking station pegs, or environmentally friendly biodegradable pegs, we have options for everyone.

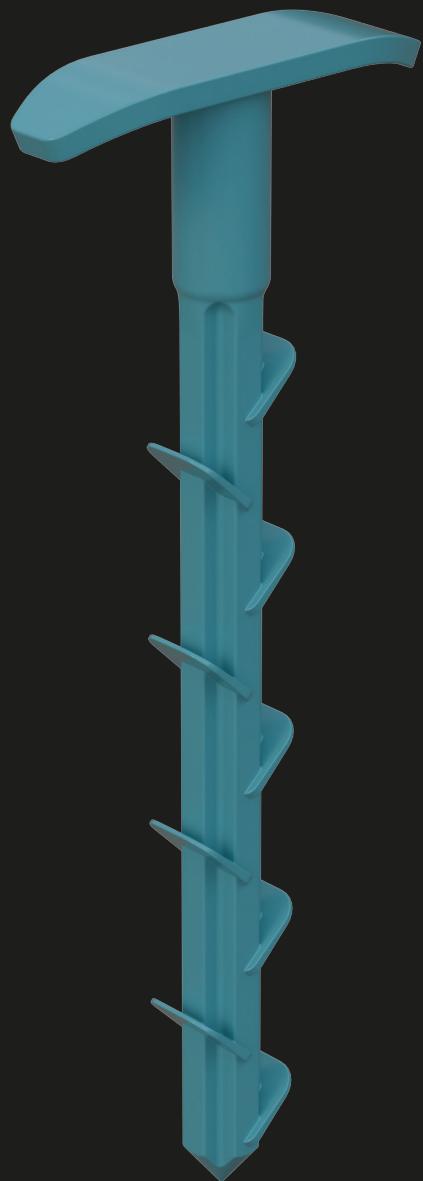

Our commitment to continuous improvement means that all our pegs undergo enhancements, and our latest extreme pegs are now more robust than ever, providing increased durability to prevent breakage.

- Plastic pegs
- Bio pegs
- Docking station pegs

Coming soon...

Bio Anchor pegs

Comes in two sizes and two colors

Biodegradable Pegs - 8,5cm

They make it easier to remove old cable and leave a clean installation, with only 1 cable in the ground over time.

- Green, therefore easier to hide
- They decompose after 1-2 years
- Approved by EU regulations
- A better solution for the environment
- 100 pcs per bag

Biodegradable Pegs

100 pcs

Extreme Biodegradable Pegs - 8,5cm

It is time to change to eco-friendly pegs for robot installations. Installation, with only 1 cable in the ground over time.

- A better solution for the environment
- Anchors better into the ground
- They decompose after 1-2 years
- Low cost
- Suitable for soft soil
- 100 pcs per bag

Extreme Biodegradable Pegs

100 pcs

Protect the environment by thinking green.

Use our bio pegs and minimize the plastic waste while making it easier to remove broken cable in the future.

Plastic Pegs - 8,5cm

Used to install boundary cable, or to sell at a garden shop.

- High-quality plastic
- Low cost
- 100 pcs per bag

Plastic Pegs

100 pcs

Extreme Plastic Pegs - 8,5cm

These extreme plastic pegs are used for boundary cable installations and for other gardening purposes.

- High-quality plastic
- Anchors better into the ground
- Suitable for soft soil
- Low cost
- 100 pcs per bag

Extreme Plastic Pegs

100 pcs

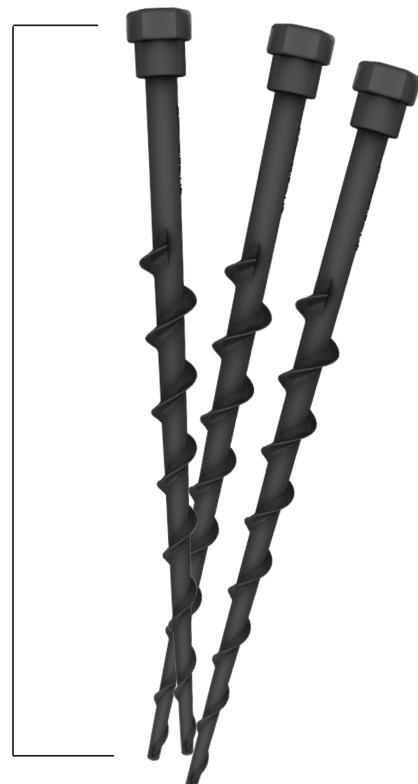

Docking Station Pegs

18cm pegs - Used to secure the docking station into the ground.

- Easy to screw into the ground
- Strong plastic
- Works for Automower, Gardena, Ambrogio, Stiga and many other brands
- Contains: 6 pegs and 1 hex drill to securely screw the peg into the ground and secure the docking station

Can be used to secure other items too

18cm

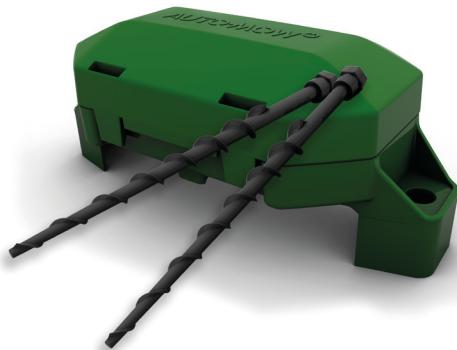

Winter Box

SKU: 46504297

The Winter Box is used when removing the docking station during winter.

- IP67 waterproof
- Suitable for all robot brands
- Easy to install
- Fasten to the ground
- Size: Length: 21cm, Width: 10cm, Height: 8,6cm
- Contains: 1 waterproof box and 2 x 18cm pegs

Secure the installation all winter

Batteries for robot mowers - Always refer to the OEM number

Can be used for other brands with same battery types

AM ROBOTS

AM ROBOTS is an international manufacturer and distribution company based in Denmark.

We design, produce, and sell innovative solutions for all aspects of the robotic lawnmower industry and are present throughout Europe and other parts of the world. Our range is vast, and we establish our set of values on quality, credibility, and service.

AM ROBOTS consists of a competent, curious, and innovative workforce that thrives in a changing industry alongside constant technological development. Our core product line is cable, and we are proud to present it along with the rest of our products in this catalogue.
